Spades, or Call Bridge, is a traditionally 4 player card game of strategy and luck. Spades uses a standard 52 card deck with Aces
high, 2s low, and Spades trumping all. The objective is to win at least as many "tricks" bid. Before the game becomes an initial dealer must be
chosen. To do so, every player is given a card from a shuffled deck and who ever receives the highest card becomes the first dealer. Ties are
broken by a repeated deal. The initial dealer shuffles the deck and the player to their right cuts it. The dealer then passes 13 cards one by
one clockwise to each of the 4 players. After everybody receives their cards, bids are made based upon the players' hand. A bid refers to the
players' expectation of "tricks" they will make in the round. Normally, all players must make a minimum of 1 bid. A trick is given to the player
with the highest card in a given round. After the bids are made, the gameplay begins. The first dealer places any one card down as a lead. In
clockwise fashion, each player then places their card down in an attempt to outrank all of the cards in play. A player must only play cards of
the same suit as the lead card. If they do not possess cards of the same suit, they may place any of their cards in an attempt to win the trick.
The winner of the round becomes the new dealer and the gameplay continues until all cards are dealt. Get your copy today by scrolling up

Upon completion of this book, "you and your spade partner" will be virtually unbeatable. You will be taught moves others have not yet seen before. Opponents will be amazed at how well you're able to predict their movements while disguising your own. Allow me to open by saying that people play the game of Spades by different rules. If one of the rules you play by is that "you cannot break, or play spades until someone has cut, or trumped a Heart, Diamond, or Club," then STOP HERE! This book is not for you! This book is for Serious Spade Players only; those players who are ready to advance to the next level! Rule #1 for serious spade players is that Spades may be played at anytime! Now that we've gotten that breach to the game of Spades out of the way we can move forward. The most important thing for you as a reader of this book is to select, or designate one person as your "steady" partner; someone you can rely on to sit with you at least 95% of the time. The more you sit and play as partners, the more you'll learn how each other plays and thinks. This book is not for the faint of heart, but again for "Serious Spade Players Only!" Although we will cover "some" basics of the game, this book is designed with the idea that participants understand the "very" basics. We will not be discussing such thing as, knowing the rank structure of face cards i.e., that ACES outrank Kings; KINGS outrank Queens, and QUEENS outrank JACKS in that order. If you have questions about the basics, STOP HERE! You are not ready for this book. Not only will we cover very little of the basic, but this book is designed to bring the INTERMEDIATE players to the level of an ADVANCED player in part 2 of this book. So without further due, we will begin our lessons on the topic of The Ultimate "Mind-Set" of winning.
